

Description

Chemical Name 4,4'-bis(2-methoxystyryl)-1,1'-Biphenyl or
1,1-biphenyl-4,4-bis[2-(methoxyphenyl) Ethenyl]

CAS Number 40470-68-6

Chemical Structure

Chemical Formula C₃₀H₂₆O₂

Molecular Weight 418

Specification

Appearance	Yellowish crystalline powder
Assay	98% min
Melting Point	216°C~222°C
Volatile Content	0.5% max
Packing	Net 25kg /fiber drum

Application

MK 127 is used as a highly efficient optical brightener for polymers, lacquers, printing inks and man-made fibers.
