# Background

## Thuraya's handset history

### Evolution of Thuraya's handsets

Thuraya XT

# Thuraya XT at a glance

---

## Key differentiators

### Reliability

- Thuraya XT is the only satellite phone in the market complying with IP54/IK03 standards, which makes it the toughest and most reliable SAT-phone
- Splash resistant, dust resistant and shock-proofed
- Thuraya XT boasts the longest battery life of any satellite handset, providing up to 6 hours talk-time and up to 80 hours standby-time

### Usability

- Thuraya XT features a large 2-inch/5cm glare-resistant outdoor display (with brightness sensor) which improves outdoor visibility in direct sunlight
- Messaging via SMS, Email, Fax
- Thuraya XT has an GSM-like advanced menu with many features, such as an Organizer or GPS Waypoint-navigation
- Perfectly balanced size-to-weight ratio allows comfortable handling in all situations

# Thuraya XT at a glance

---

## Key features

### Thuraya XT - Overview

- Satellite telephony
- IP54/IK03 standard  
(splash resistant, dust resistant, shock-proofed)
- Glare-resistant outdoor display with high contrast menu for easy readability in direct sunlight
- GPS functionality for waypoint navigation
- Messaging via SMS, Email and Fax
- Battery-saving technology with a brightness sensor for the display to reduce battery consumption
- Organizer including Calendar, Alarms, World-time,...
- Perfectly balanced size-to-weight ration
- GSM-like menu structure with user-friendly and fast access to functions

# Thuraya XT at a glance

## What is IP54/IK03 standard?

### IP54/IK03 is an International Industrial Standard

#### IP54 standard:

First digit: **5**4

Dust protected: full protection against contact, protection against interior injurious dust

= Dust cannot harm the operation of the phone

Second digit: 5**4**

Splash resistant: protected against splashed water from all directions

= Splashed water cannot harm operation of the phone

#### IK03 standard:

Shock-proofed: phone can withstand impacts of 0.35 joule

**No other SAT-phone in the market has IP54/IK03 standard!**

## Technical specifications

Part	Description
Size (without antenna part)	128 x 53 x 26.5 mm
Weight	193g
Frequency	L-Band
GmPRS Down/Up Speed	60/15 kbps
Fax and Data	9.6 kbps
Battery	Li-ion Polymer 3.7V/2520 mAh
Battery Charging	Max 1.3A
Travel Charger	5V / 2A (Plugs: EU/UK/CHN-type)
OS	VxWorks
LCD	262K Colors TFT 2.0" 176*220 Pixels
External Interfaces	USB Data Cable Interface (UDC), Ear Jack, Battery, DC Power
Type approvals	CE, GMPCS, FCC, A-Tick & C-Tick
Environmental specifications	IP54/IK03 standard
Storage temperature	between -20°C and +70°C
Operating temperature	between -10°C and +55°C
Humidity	between 5% - 95%
Vibration	withstand a random vibration of 0.3 m <sup>2</sup> /s <sup>3</sup> from 200 to 2000 Hz along 3 orthogonal axes perpendicular to the six faces at 30 minutes each without damage
Shock	withstand a shock pulse of 300 m/s <sup>2</sup> for 6 ms along the 3 orthogonal axes perpendicular to the six faces without damage
Solar radiation	withstand 1120W/m <sup>2</sup> solar radiation
Air Pressure for Transport at Altitude	withstand 57 kPa (equivalent to 15000 feet)
PC compatibility	Windows Vista, Windows XP, Windows NT, Windows 2000

## Designed for harsh environments

### A tough phone!

**Dust  
protected**

**Splash  
resistant**

**Shock  
proofed**

Built to exacting standards and using the newest materials in the industry to achieve high quality hardware:

- The latest durable polycarbonates for the outside case
- Aluminium to shield the inside components
- Rubber seals on all plugs to protect from water and dust

**→ Making Thuraya XT the toughest SAT-phone in the world!**

# Thuraya XT at a glance

---

## Unique features

- Advanced power-saving technology:  
Built-in brightness sensor which reduces battery consumption
- Rubber straps along the side of the handset provide excellent grip and handling while in hand

## Criteria in the decision-making process

### Directly influencing the buying decision:

- IP54/IK03 standard
  - Dust protected
  - Splash resistant
  - Shock proof
- Toughest SAT-phone (most rugged with highest reliability in the market)
- Longest battery life of any SAT-phone (up to 6 hours talk-time and up to 80 hours standby-time)
- Very user-friendly menu structure (GSM-like) with advanced functions
- Good display visibility in direct sunlight, low reflection
- GPS-navigation functionality
- Professional look&feel
- Perfectly balanced size-to-weight ratio
